The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person whose name appears on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

k. Description of Request: As required by the November 10, 2011 Order on Rehearing and Amending Shoreline Management Plan, ordering paragraph (E)(2), Ameren filed its comprehensive report describing encroachments (privately-built non-conforming structures) within the revised project boundary. These encroachments are accessory structures built after March 28, 2008, such as decks, walkways, gazebos, patios, and boathouses, and do not include residential structures. The report does not include structures built where owners had the right to construct them, or those that have been previously permitted by Ameren or its predecessors. The report only addresses unpermitted structures built without authorization from Ameren and without an appropriate property right. Ameren's report indicates that none of the encroachments interfere with project purposes, and therefore no structures will need to be removed.

l. Locations of the Application: A copy of the application is available for inspection and reproduction at the Commission's Public Reference Room, located at 888 First Street, NE, Room 2A, Washington, DC 20426, or by calling (202) 502-8371.
